

Database of TA-Researchers

Version 1.0 (open-source)

June 2018

EATA office, Silvanerweg 8, 78464 Konstanz, Germany

Tel. 0049-7531-95270, EATA@gmx.com

Introduction

Dear colleagues!

To support you in your communication and collaboration with scientific projects in TA we have created a first version of database of specialists who have an interest in TA theory development.

There are two parts of the Database:

- 1) *open-source* (which was published on the EATA web-site and sent out by email);
- 2) *private email sharing* (only for sharing with other people who have given information about themselves to this database).

The results of this work will be presented at the EATA Conference and Council meeting in London 2018. Also we are planning to refresh the Database every year before each Council meeting.

If you want to add information about yourself in the Database please use link for special form:

<https://goo.gl/forms/QO6qkHGnfz8yr1H2>

We thank you all for your interest in our project and cooperation!

Main developers: Ilya Fedotov (Russia, if@psychiatr.ru),
David Krystof (Czech Rep., david.krystof@ta-cata.cz)
